Introduction

The Directory of Marine and Freshwater Scientists in Canada — 1984 is an inventory of marine and freshwater scientists and engineers in governmental organizations, universities, and industry, who are engaged primarily in research and development, and consulting. The Directory also includes scientists engaged in scientific services and management.

The Directory is in five sections:

Section 1 List of Specialities and Activities
Section 2 Organizations
Section 2.1 — Government
Section 2.2 — International Organizations
Section 2.3 — Universities
Section 2.4 — Industry
Section 3 Organizations and Associated Scientists
Section 4 Scientists' Specialities and Activities
Section 5 Specialities and Associated Scientists

In Section 2, each organization is assigned a number which is used in Sections 3, 4, and 5 to identify the work location of each scientist.

The information in the Directory, current to December 1983, was supplied by participating organizations to the Canadian Committee on Oceanography (CCO). The Directory was published by the Scientific Information and Publications Branch of the Department of Fisheries and Oceans.

Introduction

Le **Répertoire des experts des sciences de la mer et des eaux douces au Canada — 1984** constitue une liste des ingénieurs et spécialistes des sciences de la mer et des eaux douces, membres des organismes gouvernementaux, des universités et de l'industrie, et dont les activités sont surtout orientées vers la recherche, le développement et les services de consultation. On y trouve aussi le nom d'experts en gestion et en services scientifiques.

Le répertoire comprend cinq sections:

Section 1 Relevé des domaines et activités
Section 2 Organismes
Section 2.1 — Gouvernement
Section 2.2 — Organisations internationales
Section 2.3 — Universités
Section 2.4 — Industrie
Section 3 Organismes et leurs experts
Section 4 Experts, domaines et activités
Section 5 Domaines et leurs experts

Dans la section 2, on attribue à chaque organisme un numéro qui est utilisé dans les sections 3, 4 et 5 pour indiquer le lieu de travail de chaque scientifique.

Les renseignements figurant dans le répertoire, qui exposent la situation de chaque scientifique en décembre 1983, ont été fournis par divers organismes à la demande du Comité canadien d'océanographie. Le répertoire est publié par la Direction de l'information et des publications scientifiques du ministère des Pêches et des Océans.
